

## ***Utah County Emissions Test Prep***

### **TRAINING SUMMARY:**

The Emissions Test Preparation Training is a non-credit 20 hour course designed to help an auto technician prepare for the Utah County Emissions certification by gaining a basic knowledge of the automobile's engine mechanical, cooling system, fuel system, electrical system and emission control systems. The material covered in this course will prepare the technician for the Utah County Emissions week-long course and subsequent test. This course meets the minimum training requirements for Utah County. Utah County will waive the pre-test for students who have current ASE L1 Certifications.
