

Chuck Middleton

Chuck Middleton has been a project manager for 27 years, at companies such as the Jet Propulsion Laboratory and WordPerfect Corporation. At WordPerfect he was in charge of the development of the first version of WordPerfect for Windows.

Since 2008 he has been a Corporate Trainer for AtTask, Inc., helping customers implement and use a web-based project management software system.

After receiving his own PMP Certification, he decided to create an affordable course to help other Project Managers simultaneously get their required 35 hours of project management training and prepare for the PMP Exam.
