

Tooling U Technical Requirements

Listed below are the minimum system requirements for properly viewing Tooling U classes. Our classes may function with other configurations, but these requirements ensure a quality learning experience.

Hardware

- 450 MHz Intel Pentium II processor (or equivalent)
- 128 MB RAM
- Speakers/Headphones (recommended but not required)

Software

- Microsoft Internet Explorer 5.0 or greater (free download link below)
- Macromedia Flash Player 8.0 or greater (free download link below)
- Adobe Reader (free download link below)

Internet

- 56K Internet connection minimum. For optimum performance, a broadband Internet connection is recommended for audio and video use.

Domains

If your organization restricts certain URLs on the Internet, the following URLs must be granted:

- <http://www.toolingu.com> (206.180.165.198)
- <http://toolingu.com> (206.180.165.198)
- <https://ssl.google-analytics.com> (66.102.11.97)
- 209.162.176.43
- 209.162.176.45

Software Download Locations

- Microsoft Internet Explorer
 - <http://www.microsoft.com/windows/ie/downloads/default.msp>
- Macromedia Flash Player
 - http://www.macromedia.com/shockwave/download/download.cgi?P1_Prod_Version=ShockwaveFlash
- Adobe Reader
 - <http://www.adobe.com/products/acrobat/readstep2.html>
