This is a recurring class, usually held every other month.

Background:

The published cost for the course is \$400* per person.

That includes \$130 for instruction, \$185 for books, and \$85 for the test. If a student fails the first time, it covers a second test. The approved testing center is here at the MATC. It is a three-hour, open-book exam.

We have state Custom Fit funds to assist "for-profit" companies—including individual contractors—with their training and we work with the company directly to pre-register their employees.

*** The Custom Fit cost for a qualified company is only \$200 per person.**

Contact us if you have questions.

A minimum of 12 students is required.
