### **Additional Information:**

The **published price for the course is \$494 per person**. That includes instruction; materials(2009 International Residential Code manual, Questar Good Practices booklet, Simpson Sizing handbook, Gas Technician Certification folder of instructions, calculator, pen, and notebook); and test voucher. The test voucher allows the student to take the exam two times in one year (if they fail the first time). The approved testing center is at the MATC in Orem, 987 S. Geneva, Rd. The test is a three-hour, open-book exam.

We have State Custom Fit funds to assist "for-profit" companies—including individual contractors—with their training and we work with the company directly to pre-register their employees. **Pre-qualified companies pay just \$247 per person** for this training.
